

TopTeam Feature Matrix

Features	Products			
Enterprise Edition	TopTeam Use Case Analyst	TopTeam Analyst Use Cases & Requirements Management	TopTeam Life Cycle Suite (Firebird)	TopTeam Life Cycle Suite (Oracle)
Tracking & Project Management				
Hierarchical Structure. Break down any Tracking Item into Sub-Items to any depth			X	X
Change Request Management			X	X
Bug Tracking			X	X
Capture Screenshot and attach to Defect/CR, etc.	X	X	X	X
Impact Analysis - for any CR/Defect etc			X	X
Project Planning (WBS)			X	X
Unplanned (Ad hoc) Task Tracking			X	X
Define a unique Life Cycle (States) for each Item type			X	X
Define a unique Workflow for each Item type			X	X
Object Repository - Store and Reference all development artifacts			X	X
Workflow				
Define Life Cycle (States/Stages) for Tracking Items			X	X
Define Life Cycle (States/Stages) for Development Artifacts	X	X	X	X
Auto assignment of Tracking Items based on rules			X	X
Auto assignment of Development Artifacts based on rules	X	X	X	X
Release Management				
Identify specific Tracking items as Deliverables for a Release	X	X	X	X
Identify specific Requirements, Use Cases, etc. as Deliverables for a Release	X	X	X	X
Visualize Release Plan via Dashboard	X	X	X	X
Document Management				
Add any kind of file to the Document Repository	X	X	X	X
Check-In/Check-Out control	X	X	X	X
Organize files in nested folders	X	X	X	X
Lock documents to prevent further modification	X	X	X	X
Automatic Versioning	X	X	X	X
Baseline (Snapshot/Label)	X	X	X	X
Synchronizers				
Import references to Source files - Visual SourceSafe Synchronizer			X	X
Import references to sources files from a folder hierarchy - Files Synchronizer			X	X
Import references to Stored Procedures, Triggers, Stored Procedures - Oracle DB objects synchronizer			X	X
Import references to Entities, Modules, Functions, etc - Oracle Designer Synchronizer			X	X

Features	Products			
Enterprise Edition	TopTeam Use Case Analyst	TopTeam Analyst Use Cases & Requirements Management	Life Cycle Suite	Life Cycle Suite (Oracle)
Collaboration Tools				
Subscribe for Notifications whenever a Tracking Item or Development Artifact is modified			X	X
Send Notification with an attached record (Tracking Item or Development Artifact)	X	X	X	X
Threaded Discussions	X	X	X	X
Record Minutes of Meeting in rich editor (email directly to participants)		X	X	X
Send Instant Message to any Online User	X	X	X	X
Drawing Tools				
Use Case Diagram	X	X	X	X
Screen Navigation Diagram		X	X	X
State Diagram		X	X	X
Free Form Diagram (Use For, Process Flow, etc.)		X	X	X
Use Cases				
State-of-the-art Main Flow, Alternate Flow Editor	X	X	X	X
Automatically generate Activity diagram from Flow Text	X	X	X	X
Automatic Versioning of Use Case Flow/Properties	X	X	X	X
Baselining	X	X	X	X
Use Cases "Trace Into" other system elements	X	X	X	X
Use Cases "Trace From" other system elements	X	X	X	X
Reports				
Easily customize any RTF report template using MS Word or RTF editor	X	X	X	X
Instantly generate RTF report output from all editors	X	X	X	X
Include Diagrams in RTF reports	X	X	X	X
Generate customizable HTML output from any editor	X	X	X	X
Generate tabular HTML output from Grids and Trees	X	X	X	X
Requirements Management				
Hierarchical Requirements Structure		X	X	X
Requirements Tree		X	X	X
Exclusive WYSIWYG document style editor for Requirements Hierarchy		X	X	X
Online Documents with hyperlinks to any Development Artifact		X	X	X
Application Simulation via Screen Prototypes		X	X	X
Define Requirement Types		X	X	X
Define Life Cycle (States) for each Requirement Type. i.e. Approval / Implementation Process.		X	X	X
Define Workflow for each Requirement Type		X	X	X

Features	Products			
Enterprise Edition	TopTeam Use Case Analyst	TopTeam Analyst Use Cases & Requirements Management	Life Cycle Suite	Life Cycle Suite (Oracle)
Traceability				
Trace any system element to any other system element		X	X	X
Customize Traceability rules. i.e. Which element type can trace into which other element type.		X	X	X
Create and Visualize Traceability using four different interfaces		X	X	X
Trace Diagram		X	X	X
Trace Matrix		X	X	X
Trace Network Diagram		X	X	X
Trace Explorer		X	X	X
